## Do you have broken items at home - clothes, small appliances, toys, electronics?

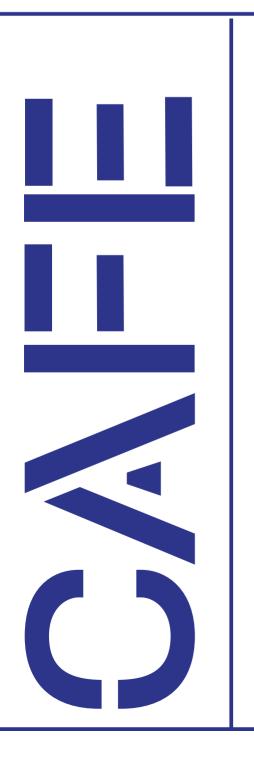

No need to throw them away! Save your things from the landfill and your wallet from having to replace them.

Bring them to our repair café and learn how to fix them together with our volunteers. We have tools, materials, space to work on your item, and repair experts who will help you with your repair.

TOG members will be on hand to show you around the space - come and enjoy a tea or coffee and a tour while you wait!

TOSS IT? NO

## What objects can you bring in?

- \* Clothes and accessories
- \* Toys
- \* Small electrical appliances and electronics
- \* Small furniture
- ... and many other things!

Safety (PAT) testing for electrical devices will be available.

Where? - TOG Hackerspace, Unit 1B Motor City Kylemore Road, Dublin 12 When? - Sunday April 24th, 11 am - 4 pm

Admission free - all are welcome!

We want to make the event as safe as possible for you and our volunteers. Please wear a mask while you are in the space,

and do not attend if you have any symptoms of COVID-19. Thank you!
